Division of Public Assistance
Work Service Participant Listing Data Dictionary

Eiscsnum: The family's Temporary Assistance case number.

Jasoff: The service provider office number to which the case is assigned.

Jasunit: The service provider unit number to which the case is assigned.

Jascsld: The service provider caseload number to which the case is assigned.

Met: Indicates whether the family met the minimum Overall Participation work requirements.

Refer to the Performance Measures Definitions document on the Work Service Performance Measures website for more information regarding the criteria for a family to meet the minimum Overall Participation work requirements.

InclExcl: Included or excluded from the participation calculation. Families are only excluded from the calculation if they are:

- Single parents with a child under 1 - coded with a 'BA' work exemption.
- Penalized this month, but not penalized more than 3 months in the past 12.
- Lacking work eligible adults.

Please note: Penalized families or families with 'BA' work exemptions who are meeting the work requirements are included in the calculation because it increases service providers' rates.

Childcare: Childcare amount paid for the month (*2Parent*).

Famcore: (Core_1 + Core_2) (*2Parent*).

Famtot: (Total_1 + Total_2) (*2Parent*).

Famtype: The code describing the type of Temporary Assistance family.

AI	= Single Parent Family	IC	= Two-Parent Incap
UP	= Two-Parent Family	AP	= 3RD Trimester

Fnam_1: First name of the first adult in the case.

Lnam_1: Last name of the first adult in the case.

Core_1: Number of the first adult's weekly hours in federally countable work activities.

Total_1: Total number of the first adult's weekly hours in both federally countable and self sufficiency activities.

FY0Xwks_1: Total number of Job Search/Job Readiness weeks in fiscal year counted for 1st parent.

Fnam_2: First name of the second adult in the case – blank if no 2nd parent.

Lnam_2: Last name of the first adult in the case – blank if no 2nd parent.

Core_2: Number of the 2nd adult's weekly hours in federally countable work activities (blank if no 2nd adult).

Clientid: 10 digit unique identifier used by the Division of Public Assistance

Total_2: Total number of the first adult's weekly hours in both federally countable and self sufficiency activities – blank if no 2nd parent.

FY0Xwks_2: Total number of Job Search/Job Readiness weeks in fiscal year counted for 2st parent.

Calculation for weekly hours: Monthly Actual Hours divided by 4. The weekly hours calculation is different in the application month. During the application month, weekly hours are prorated from the date of application. Refer to the glossary in the Performance Measures Definitions document for the precise calculation.
